SETS AND PROJECT BASED SOLUTIONS

Electrostart JSCo has always been close to its customers. Since we want to present a working solution to our partners, we have started to work for Projects and present a final complete solutions as per request.

When completing a certain project, the product is included in our portfolio as a SET and as well separately to be ordered. Thus we develop our product range and can present more different types of solutions in order to satisfy the customers' needs.

The above presented products can be ordered separately and as a complete Set.

ES

EQUIPOS LED Y SOLUCIONES BASADAS EN PROYECTOS

Electrostart JSCo siempre ha estado cerca de sus clientes. Para poder satisfacer las necesidades de nuestros clientes, hemos empezado a trabajar sobre Proyectos concretos, ofreciendo soluciones completas basadas en los requerimientos de nuestros clientes.

Al finalizar un proyecto concreto, incluimos el producto en nuestro portafolio como equipo, con la posibilidad de ser ordenado por separado también. Así desarrollamos nuestra gama de productos y podemos ofrecer distintas soluciones a nuestros clientes con el fin de satisfacer sus necesidades.

Los productos arriba presentados pueden ser ordenados por separado o como equipos completos.

ENG

IP Protection Class: IP68 for outdoor installations
 EMC Standards: EN 55015, EN 61000 -3-2, EN 61000-4-2,3,4,5,6,11
 Safety Standards: EN 61347-1, EN 61347-2-13
 Over load Protection: over 100 % of rating, auto-recovery
 Short Circuit Protection: yes
 Over Voltage Protection: yes
 Withstanding Voltage: I-O:3,75 KVAC, I-FG: 2KVAC, O-FG 1,5 KVAC 1 minute
 Isolation Resistance: I-O, I-FG-O-FG: 100 M ohms/500 VDC
 100 % full load burn-in test: yes
 Body: Metal Case
 Warranty: 3 years
 Approvals: CE, CB, ENEC if required

ES

Grado de protección IP: IP68 para instalaciones de exterior
 Estándares para CEM: EN 55015, EN 61000 -3-2, EN 61000-4-2,3,4,5,6,11
 Estándares para seguridad: EN 61347-1, EN 61347-2-13
 Protección contra sobrecarga: Sí
 Protección contra cortocircuito: Sí
 Protección contra sobrevoltaje: Sí
 Voltaje resistente: I-O:3,75 KVAC, I-FG: 2KVAC, O-FG 1,5 KVAC 1 minuto
 Resistencia de aislamiento: I-O, I-FG-O-FG: 100 M ohms/500 VDC
 100% prueba de quemaduras a plena carga: Sí
 Cuerpo: Estuche de Metal
 Garantía: 3 años
 Aprobaciones: CE, CB, ENEC si se requiere

ENG

Electrostart JSCo is an independent European manufacturer of components for the lighting industry, established in 1967. Ever since providing the highest standards of products and customer service is the Electrostart's primary goal.

Today the company has a well-established supply chain in more than 40 countries worldwide. Our portfolio offers LED drivers, LED modules, project based solutions, electronic ballasts for fluorescent lamps, safety electronic transformers, magnetic ballasts for high intensity discharge lamps and components for the lighting control gear as well. All our products meet the latest design, reliability and energy-efficiency requirements. The lighting business environment is very dynamic and the present is the time for change to new more efficient and ecologically friendly lighting sources. Business environment changes as well and companies start to cooperate more in order to develop their product range. Electrostart has always tried to be close to its customers and provide solutions that meet the expectations of both the customer and final user.

More than 50 years we do business in responsible manner. All our actions are driven by the principles of professional competence, corporate honesty and transparency. We set up sustainable practices for corporate development and this is reflected in our integrated quality management system ISO 9001:2015, environmental policy tailored to ISO 14001:2015 and Occupational health & safety under OHSAS 18001:2007.

Electrostart's products comply with all applicable European Directives; they are tested and certified by VDE Germany, CENELEC AENOR Spain, Intertek.

ES

Electrostart JSCo es un fabricante europeo independiente de componentes para la industria de la iluminación desde el año 1967. La alta calidad de los productos y el servicio al cliente son el objetivo principal de Electrostart.

Hoy en día la empresa cuenta con una cadena de suministro bien establecida en más de 40 países de todo el mundo. Nuestro portafolio ofrece convertidores electrónicos para diodos emisores de luz, módulos LED, soluciones basadas en proyectos, balastos electrónicos para lámparas fluorescentes, transformadores electrónicos de seguridad, balastos magnéticos para lámparas de descarga a alta presión, tal como componentes para dispositivos de control de la iluminación. Todos nuestros productos cumplen con los últimos requisitos de diseño, fiabilidad y eficiencia energética.

El negocio en el sector de la iluminación es muy dinámico y ahora es el momento de cambiar las antiguas con nuevas, más eficientes y ecológicas fuentes de iluminación. El entorno empresarial también cambia y las empresas comienzan a cooperar más para desarrollar sus gamas de productos. Electrostart siempre ha tratado de estar cerca de sus clientes y ofrecer soluciones para satisfacer las necesidades de ambos tanto de los clientes, como de los usuarios finales.

Más de 50 años hacemos negocio de manera responsable. Todas nuestras acciones están impulsadas por los principios de la competencia profesional, la honestidad y la transparencia corporativa. Hemos creado las prácticas sostenibles para el desarrollo empresarial y esto se refleja en nuestro sistema de gestión de calidad ISO 9001:2015, la política ambiental adaptado a la norma ISO 14001:2015, Ocupacional y seguridad y salud en virtud de la norma OHSAS 18001:2007.

Nuestros productos cumplen con todas las directivas europeas aplicables y han sido aprobados y certificados por VDE - Alemania, CENELEC AENOR - España, Intertek.
